

**ACT Entering Student Survey  
Columbus State University  
Fall 2004  
Student Comments**

The requirements for the Nursing program is demanding. I was told that I could not stand a chance in the nursing programs with the "C"s I have on my transcript. Although Columbus State catalog say a "c" or better. I think Financial Aid here is awful. What's the use of having Financial AID if you still have to pay!

I suggest they remodel the old apartments.

I would be considered an adult reentering college, so some of the questions about my parents influences and my high school wouldn't apply. Being that I am originally from Chicago, IL.

If I wanted to get involved w/ the theatre department or the newspaper department. How could I? Because they do not seem as open as all the other activities @ this college and those are two things that I would like to get involved in.

Some of these questions are a complete waste of my time.  
Surveys need to be enforced.  
Many of these questions don't apply to entering freshmen.  
The pencils need to be trashed. Absurd writing implement.

Apathy is not good.

There needs to be a larger number of ITDS courses available that introduce All cultures not just minorities. There seems to be a big emphasis on majority/minority understanding but nothing about minority/majority. As a member of the "majority" I never see anything to educate/encourage "minorities" about interacting/understanding the majority. The burden/blame is on the shoulders of the "majority" when it should be shared.

Move dorms away from the street and remodel them.  
Get a better variety of food in the cafeteria.

I do not feel as though this college is where I need to be. I feel like I am still in high school. The housing facilities in Courtyard I need to be re-done completely. The meal plan needs to be rearranged so that students can have food during weekends. The campus police need to be available during the day as well at night. There also needs to be more interaction between the different various ethnic backgrounds.

Build more apartments so that more people can stay on campus. Don't require so many useless classes.

We'll be a Division 1 school in a few years. I want a football team!!! ☺ (autographed with the #5 below it)

More morning classes

I need student loans, and you won't let me get any (suckers)

Need to have a music therapy program.
